✓ **Clear and Actionable**

Real-time and remarkably accurate on forex, crypto, and stocks.

6 benefit statements (Max 60 characters with spaces):

3 Product Images: send as attachment

Highlight Video (60 seconds or less in 16:9 format showing the product in action): send as attachment or share drive link

Example:

Apollo Indicator

Here is what you get with a monthly subscription

Clear signals displayed on your chart.

High accuracy on all forex, crypto and stocks across all timeframes.

"Simplify your trading process and eliminate uncertainty with our advanced tool"
The Apollo Team

The image is a promotional graphic for the Apollo Indicator. It features a light gray background with the text 'Apollo Indicator' at the top. Below this is the main headline 'Here is what you get with a monthly subscription'. The central part of the graphic contains three screenshots of trading charts. The top-left chart shows a price line with a 'Sell' signal and a price of 465.77. The top-right chart shows a price line with a 'Buy' signal. The bottom-center chart shows a price line with a 'Buy' signal. To the right of the top-left chart is the text 'Clear signals displayed on your chart.' To the left of the bottom-center chart is the text 'High accuracy on all forex, crypto and stocks across all timeframes.' To the right of the bottom-center chart is the Apollo logo, which is a circular emblem with a triangle inside, and the text 'The Apollo Team' below it. A quote above the logo reads: 'Simplify your trading process and eliminate uncertainty with our advanced tool'.

All markets
All timeframes

The Apollo Trading is a team of highly skilled professionals dedicated to in house built trading solutions with the best value for money.

If applicable, write step by step Instructions for clients to apply EA or signals

Example:

MT5

Set Up Instructions

Once you purchase a monthly subscription to the Apollo Indicator you will get an email notification from Monaxa and an email from the Apollo Team with your unique license/serial key.

Please note: it will take up to one business day to receive an email from Apollo and to activate your Indicator.

Adding an Indicator to MetaTrader (MT5)

Step 1. Open and launch the MetaTrader platform on your computer

Step 2. Open the Data Folder:

Click on File in the top menu.

Select Open Data Folder. Opens a folder for all your MetaTrader 5 files are stored.

Step 3. Navigate to the MQL5 Folder:

In the Data Folder, open the MQL5 directory.

Within the MQL5 folder, find and open the indicators folder.

Step 4. Copy the Indicator File:

Copy the Indicator file (it should have a .mq5 or .ex5 extension)

Paste the copied Indicator file into the indicators folder.

Step 5. Refresh or Restart MetaTrader 5:

Go back to the MetaTrader 5 platform.

In the Navigator window, right-click on Indicators and select Refresh.

Alternatively, you can restart MetaTrader 5 to ensure the new Indicator is loaded.

Step 6. Attach the Indicator to a Chart:

In the Navigator window, expand the indicators section.

Locate the Indicator, drag it onto the chart where you want it to be applied.

Step 7. Once the indicator is dragged onto the chart you will see a new window appear. This is where you enter your unique license/serial key and allow DLL imports.

If at first the signals do not appear on the chart, please cycle through the timeframes and they will start to appear. This happens as the EA is gathering data and only happens on the first-time loading.

How the subscription process works

Once a client purchases a monthly subscription to your product/service through Monaxa, they will receive an email from Monaxa thanking them for the initial purchase and one from you with your unique access rights.

You will be BCCd on the "Thank you for the purchase" email. Use this to get the clients email and to know the first monthly purchase was made. You would email the client from your side notifying them of any further steps, etc.

To maintain the monthly subscription, the client would need to keep their vault account topped up to cover the monthly subscription fee. Each month the fee would be automatically deducted from this wallet.

If the client does not continue to pay for the subscription fee through the wallet, they would receive an email notifying them they must do so to maintain the subscription. You will be BCCd on each of these emails and the client will get one until they either cancel the subscription or you decide to cancel for them due to lack of payment.

The following is an example of what is explained to the client within the course page in the Monaxa Portal:

Purchasing Instructions

Getting Started

Once you purchase a monthly subscription to AlgoBuilderX through Monaxa you'll get two initial emails. One from Monaxa thanking you for your purchase and one from AlgoBuilderX with your unique access rights.

Please note: your "Thank You For Your Purchase" email from Monaxa will be instantaneous. But it may take up to one business day to receive an email from AlgoBuilderX with your access rights.

Once your first month's purchase is almost over you will get a reminder email from Monaxa to top off your Vault account with enough funds to cover the next month's subscription. Failing to do so may result in blocked access to the subscription benefits.
